

SERIES 2600 - 'THE BIG LIFT'

PRODUCT BROCHURE

www.sumner.com

The **Specialized Fabrication Equipment Group** (in short: **S.F.E. Group**) was founded in 2019 after the merger of three world leading OEM's in the field of pipe fabrication tooling and machinery: B&B Pipe and Industrial Tools LLC (USA), Mathey Dearman Inc. (USA) and TAG Pipe Equipment Specialists (UK). In a time span of 5 years, another 4 renowned and market leading companies were acquired and added to the **S.F.E. Group** portfolio: Axxair (France, 2022), Magnatech (USA, 2023), Climax (USA, 2023) and SUMNER (USA, 2025).

The vision and philosophy of the **S.F.E. Group** is to offer globally a comprehensive innovative and cost-effective range of specialized fabrication, welding and machining equipment and derived rental solutions, for a wide range of applications within all critical industries, while optimizing performance, efficiency and safety.

Leveraging over 200 years of combined experience in engineering, manufacturing, and field applications, the **S.F.E. Group** is committed to driving innovation. Through continuous product development and strategic acquisitions, the **S.F.E. Group** is actively growing its portfolio and expanding its global presence to meet the demands of industries around the world. Currently, the **S.F.E. Group** consists of 12 complimentary brands, each supporting the others in delivering cutting-edge solutions.

With offices and warehousing on 5 continents, 400+ employees and more than 500 partnerships and distributors worldwide, **S.F.E. Group** prides itself on consistently offering the highest standards of both product quality and service locally to all its customers.

S.F.E. Group looks forward to welcoming you into its global network as a partner, distributor or end user customer and remains at your disposal at any time.

S.F.E. GROUP GLOBAL PRESENCE

SUMNER Material Lifts is a world leading brand in the material handling and construction industries, renowned for its innovative, durable, and user-friendly solutions. Founded in 1965 and now a part of the Specialized Fabrication Equipment Group (in short S.F.E. Group), **SUMNER Material Lifts** has built a global reputation for providing high-quality lifting equipment. Designed with safety and efficiency in mind, **SUMNER Material Lifts** products are widely used by professionals in mechanical contracting, plumbing, HVAC, welding, and electrical installation.

SUMNER Material Lifts' product line includes a broad range of lifting tools such as material lifts, duct lifts, Roust-A-Bouts, gantries, and heavy-duty hoists, all engineered to meet the demanding requirements of job sites around the world. All equipment is known for ease of use, robust construction, and industry-leading safety features, making it the preferred choice for both large-scale industrial projects and everyday construction needs.

With a long tradition of quality, reliability and value and a strong commitment to innovation and customer satisfaction, **SUMNER Material Lifts** continues to set the standard in lifting and material handling solutions.

In conjunction with all other S.F.E. Group portfolio's brands, **SUMNER Material Lifts** continues to lead the way in lifting and fabrication solutions, delivering tools that elevate the operator's standard of work.

SUMNER Material Lifts products are always nearby available within the S.F.E. Group global network and can be consulted on the dedicated website: www.SUMNER.com

The SUMNER Material Lifts Series 2600 - also called 'The Big Lift' - is engineered for tough, high-demand lifting jobs in confined areas. With an impressive load capacity of up to 1,100 lbs / 498 kg and a max lift height of 15 ft / 4.57 m, this lift excels in situations where space is limited but performance cannot be compromised.

The Series 2600 features a SUMNER Material Lifts - built two-speed winch system for optimized load control, along with adjustable steering handles and a compact design that simplifies transport and setup. Its heavy-duty frame and multiple accessories ensure reliable operation across challenging job sites.

SPECIFICATIONS

- Lifts up to 1,100 lbs / 498 kg
- Max height of 15 ft / 4.57 m
- Two-speed SUMNER Material Lifts winch system
- Fast-adjust steering handles for precision placement
- Breaks down quickly for transport
- Reversible forks for added reach
- Tool-free plunger pin adjustments
- Multiple accessories for tailored use
- Heavy-duty design for industrial applications
- Available in powder-coated and galvanized finishes

Shown with optional galvanized finish

FEATURES AND PRODUCT SPECIFICATIONS

Adjustable steering handle that stows away at the push of a button

The forks can be quickly folded using the spring-loaded positioners.

Note: Braces are standard on 15 ft / 4.5 m models, optional on 10 ft / 3 m models.

The brace locking mechanism secures the legs in both the storage and operating positions.

Fork extensions add 8" / 200 mm length with a button press, store inside forks, support 450 lbs / 205 kg. Part 783163.

Spring-loaded positioner unlocks legs, allowing them to fold for storage. Roller wheels under each leg enable easy movement in storage position.

Its robust two-speed winch makes lifting heavy loads effortless.

Enclosed aluminum pulleys prevent the cable from slipping out of place.

The mast roller wheels help roll the lift into vehicles.

Mast retainer bar for horizontal transport. The retainer bar can be repaired if bent.

Innovative lifting hook designed for crane operation.

OPTIONAL SAFETY BRAKES

Each mast and mobile base can be factory-equipped with a gravity-activated safety brake that supports the load to help prevent any slack in the cable.
