M18 FUEL™ 1-1/8" SDS Plus Rotary Hammer Kit

★★★★★ 5.0 (3) Write a review

Powered by FUEL™ technology, the M18 FUEL™ 1-1/8" SDS Plus Rotary Hammer delivers faster than corded speed, corded durability, and all day work on one charge. The Milwaukee POWERSTATE™ Brushless Motor Provides 3.3 ft-lbs of impact energy, 0-1,350 RPM, and 0-

5,000 BPM. The Milwaukee REDLITHIUM™ XC5.0 Battery Packs provide all day work on one charge, 20% more power, and 2X more life than standard Lithium-Ion batteries. REDLINK PLUS™ Intelligence integrates full-circle communication between tool, battery, and charger to protect from overloading, overheating, and over-discharging.

Drills through hard rock

I got this tool to drill 5/16 in holes in local granite for splitting boulders and fixing bolts, and it works very well. It has enough power to drill quickly, yet still get enough holes out of a charge in hard rock. The shock absorption is a nice feature as well, with almost no uncomfortable vibrations from drilling. The tool also has a nice light on it which is great for drilling around boulders and into crevices. It is a bit heavy though, and with multiple batteries and bits it can be a pain to carry long distances, but for the amount of work it does it is worth it. I do also wish that they would include more room in the hard carrying case for batteries and bits.

 Pros: Durable, Good Power Output, Shock absorption

 Cons: Slightly heavy

Unbelievable power ;)

Never seen such a powerful cordless rotary hammer with 18volt batteries. Milwaukee changed the way I think about cordless tools with their Fuel-Technology. I hope they will also upgrade the rest of

they M18 and M28-line with they fuel-technology. Can't wait to see new products with this new technology inside. Milwaukee NBHD ;)
