

SAFE, FAST AND EFFECTIVE

Find a bolt hole aligned enough for the tapered shaft to fit thru and turn.

If necessary, use a second tool and turn until the bolt holes are in alignment and insert flange bolts.

PETOL™ Flange Aligning Tools

PETOL™ FLANGE ALIGNING TOOLS are a safe, fast, and effective solution for even the toughest flange alignment jobs. The tool's tapered shaft is a feature that eliminates the need for hammering and prying when lining up flange bolt holes.

PETOL Flange Aligning Tools are made of steel and black oxide coated for rust protection and marked with both the bolt hole size and part number for easy identification. The tools are sold individually and in sets.
