

Express-Air Negative Air Machine 24 X 24 Part#H2000SE

Express-Air Negative Air Machine is a slim unit for those had to squeeze areas! The Express-Air H2000 SE “The original Air Scrubber” was manufactured in 1981. It all started with this unit, duplicated by many, but we are proud of the H200SE’s history. Made from aircraft grade aluminum for reduced weight.
